To Whom It May Concern:

EDU Music has provided services for nearly 10 years at Easter Seals Bronx Child Development Center. Easter Seals Bronx CDC is preschool serving students ages 3-5 years of age with developmental disabilities.

The management team and music teachers at EDU Music are professional, knowledgeable about their practice, and adept at working with students with special needs. EDU Music teachers make a special effort to get to know each child individually, work with the dynamics of each classroom, and make every session fun! Not only do the children enjoy the musical activities but our school staff consistently have wonderful things to say about EDU Music. For our end-of-the-year graduation ceremony EDU music teachers will assist us with our program, and often will lead the children singing during the actual event.

The students gain so much by being exposed to music. Our students look forward to EDU Music sessions, have expressed great fondness towards their teachers, and are fully engaged and participatory. Students learn rhythm, expression, language, cooperation, and increased confidence.

I highly recommend EDU Music. They have provided wonderful music classes and so much more at Easter Seals Bronx Child Development Center!

Sincerely,

Angela Torres
Director
